Professional Summary

Backend Developer skilled in Node.js, Express, and MongoDB, with hands-on experience building and deploying secure REST APIs. Second-year Electrical & Electronics Engineering student seeking remote junior backend opportunities and freelance projects.

Technical Skills

- Languages & Runtime: JavaScript (ES6+), Node.js
- Frameworks & Libraries: Express.js, Mongoose, Joi
- Databases: MongoDB, MongoDB Atlas, Full-text Search, Compound Indexing
- Tools & Platforms: Git & GitHub, Render, dotenv, REST APIs, JWT

Projects

Blog API with JWT Authentication Node.js · Express · MongoDB · JWT

- User auth with bcryptjs password hashing and stateless JWT; protected create/update/delete routes while keeping reads public.
- Debugged dotenv v17 incompatibility and Mongoose returnDocument API migration in production.

E-commerce Product Management API (Team)

Node.js · Express · MongoDB

- Built paginated product endpoints with regex search and parallel queries via Promise.all; managed Git collaboration and branch conflict resolution.

Education

University of Energy & Natural Resources, Sunyani

January 2026 - Present

Electrical & Electronics Engineering

BeTechified Tech Academy, Nigeria

April 2026 – August 2026

Backend Development Track

Other

Built a full restaurant website (Chancellor's lounge, Accra) as a client pitch project — first self-directed frontend build.
